jsMobileConf Sponsorship Opportunities

Mobile Web - Mobile Apps - Serverless - IoT - AI - JavaScript

ABOUT jsMobileConf

JavaScript is the most pervasive language used today. And while jsMobileConf at its core is focused on mobility, you'll see us branching out into other innovative technologies like IoT, Serverless, and artificial intelligence.

OUR ATTENDEES

- 250 IT professionals from the Boston area
- Diverse group of engaged JavaScript developers
- This is a developer-focused event, plan accordingly!

EVENT SESSIONS

Artificial intelligence? IoT? Mobile web? Native mobile apps? If it can be built with JavaScript, we will have a session covering it!

2 days, 2 tracks, 26 unique sessions.

JavaScript Mobility
Mobile apps of all flavors

Serverless
JavaScript in the cloud

Internet of Things
Embedded JavaScript everywhere

Become a jsMobileConf Sponsor

We can work with you on customizing a sponsorship package.
